WORK EXPERIENCE			
Luxuriant Luxe Web Developer	I Freelanced a Website for an Organization that included a responsive and Modern Web Page, A backend, Hosting, Deployment and Database management along with my friend, and we made the website for 1/10th of the cost offered by our competition.		Nov 2023 - Nov 2023
Club Vegapod GUI Designer	I worked as a Freelancer for the club, where they asked me to make a GUI for 2 of their latest in-development Pods, just prior to their exhibition. Skills of a Graphics Designer were needed, along with a moderate understanding of sensors used on board. I successfully completed building the GUI for their display in an International Exhibition for Hyperloops. The GUI built then, is the foundation for their new GUIs built now as well. Me and My team were the first to bring together sensor data collected wirelessly, into a single desktop file. Those methods are in use even now.		Jun 2022 - Jul 2022
EMC2 Computer Science and IT Teacher	I was called to teach occassionally to the coaching Institute, where I would teach Computer Science and Information Technology to Class 11 and 12 Students for their board exams. I would have classes on Weekends, and take multiple Batches. I was paid by the number of hours taught in a day.		May 2022 - Sep 2022
PROJECTS			
Luxuriant Luxe	I Freelanced a Website for an Organization that included a responsive and Modern Web Page, A backend, Hosting, Deployment and Database management along with my friend, and we made the website for 1/10th of the cost offered by our competition.		Oct 2023 - Nov 2023
Anti Brutus	A Password Manager, and Generator, built with Security and Encryption in mind. Project for our Full Stack Development Course.		Aug 2023 - Sep 2023
Quotepaper Designer	This CLI tool scraps famous quotes from your favourite shows or movies, and then looks for it in subtitle files. It then generates a edited wallpaper with that quote, from that exact scene from the show for you. It was a unique idea, and the wallpapers were posted across several Fan communities.		May 2022 - May 2022
Chit Chat Chatrs	A Pyqt app made for visualizing and analyzing Chat data and texts between you and your friends, on common Messaging apps like Whatsapp and Telegram.		Sep 2021 - Nov 2021
